Professional Summary

Adobe Certified Professional Developer and Senior Magento 2 / Adobe Commerce Engineer with 10+ years of experience delivering enterprise-level eCommerce solutions across the UAE, India, UK, US, and Australia. Deep expertise in Magento 2 internals, PHP 8.x, and full-stack development — from custom module architecture and third-party integrations (Adyen, payment gateways, ERP/CRM, shipping APIs) to frontend performance using Hyvä, Alpine.js, and Tailwind CSS. Proven ability to lead development teams, collaborate directly with clients and stakeholders, and ship scalable, high-performance platforms on time. Proficient in REST/GraphQL APIs, Redis, Varnish, Elasticsearch, Docker, and Gitflow.

Technical Skills

- Platform** — Magento 2, Adobe Commerce (Enterprise), Adobe Commerce Cloud, Magento 1.x
- Backend** — PHP 8.x, MySQL, Laravel, MVC Architecture, OOP, Composer, REST & SOAP API, GraphQL
- Frontend** — Hyvä Theme, Alpine.js, Tailwind CSS, Knockout.js, HTML5, CSS3/LESS, JavaScript, jQuery, AJAX, Bootstrap
- Performance** — Redis, Varnish, Fastly CDN, Full Page Cache (FPC), Elasticsearch
- Integrations** — REST API, Adyen, PayTabs, Payment Gateways, Shipping APIs, ERP/CRM Systems, LogRocket, Third-party APIs, Postman
- DevOps** — Docker, Git, GitHub Actions (CI/CD), Composer, New Relic, Linux
- Architecture** — Dependency Injection (DI), Plugins, Observers, Service Contracts, EAV Model, Headless/PWA
- Collaboration** — Jira, monday.com, Slack, GitHub Projects, Agile/Scrum, Async workflows, Loom

Professional Experience

- Magento Full Stack Developer, *International Diplomatic Supplies***

11/2023 – Present
Dubai, United Arab Emirates

 - **Reduced Magento 2 checkout page load time by ~38% through Redis FPC + Varnish caching and frontend optimisation, directly improving conversion rates for a high-traffic B2B store.**
 - Architected a fully CMS-managed Hyvä homepage — Alpine.js components, Tailwind CSS, and CMS static blocks enabling non-developer content updates across hero banner, category grid, product listings, countdown timer, testimonials, and newsletter sections.
 - Delivered full end-to-end Adyen payment gateway integration — covering authorization, capture, refund, and webhook flows — enabling PCI-compliant secure transactions.
 - Built and deployed a custom bot detection and traffic prevention system from scratch, blocking fraudulent sessions and reducing suspicious requests by over 60%.
 - Implemented LogRocket for real-time session tracking and replay, cutting mean time-to-debug by ~50% and enabling precise reproduction of user-reported issues.
 - Collaborated directly with clients and project managers to gather requirements and ship scalable Magento 2 solutions consistently on schedule.
- Full Stack Developer, *TyresOnline***

04/2023 – 10/2023
Dubai, United Arab Emirates

 - **Led a team of 3 developers in delivering scalable Magento 2 eCommerce solutions across multiple simultaneous client projects.**
 - Built custom Magento 2 themes and extensions to enhance functionality and user experience.

- Improved site performance and integrated third-party services (payment gateways, shipping APIs) to ensure reliable and efficient operations.

Full Stack Developer, HD IT Solutions

01/2020 – 04/2023

- **Built and customised 10+ Magento 2 themes, templates, and layouts delivering brand-aligned, mobile-responsive storefronts for diverse client verticals.**
- Diagnosed and resolved complex technical issues in Magento 2, ensuring high availability and smooth site operations.

Ahmedabad, Gujarat,
India

Senior Software Engineer, Intesols - Intelligent Solutions (Ahmedabad)

10/2018 – 12/2019

- **Developed custom Magento 2 modules and extensions; integrated third-party payment gateways and shipping services for enterprise clients.**
- Improved UI/UX using HTML5 and CSS3 by optimizing layouts and ensuring responsive design across devices.

Ahmedabad, Gujarat,
India

Senior Software Engineer, I-Verve Infoweb INC

10/2017 – 09/2018

- **Developed custom modules for Magento 1.x and Magento 2; customised themes to meet client requirements for both B2B and B2C stores.**
- Worked across frontend and backend to deliver scalable eCommerce solutions, handling UI enhancements and server-side logic.
- Improved site performance using caching techniques and backend optimizations.

Ahmedabad, Gujarat,
India

Senior Software Engineer, Webcreta Technology

01/2016 – 10/2017

- Developed custom Magento extensions to extend core functionality and meet business requirements.
- Maintained and supported Magento websites by resolving bugs and implementing theme and feature enhancements.

Ahmedabad, Gujarat,
India

Software Engineer, Shreeji Infosoft

01/2014 – 01/2016

- Gained hands-on experience in Magento 2 and core PHP development while working as a Junior Magento Developer.

Ahmedabad Area,
India

Education

Bachelor's Degree, Electronics and Communications Engineering,
Pacific Institute Of Technology, Udaipur, Rajasthan, India

2008 – 2012
